To whom it may concern;

I have worked with the Autism Society of the Keys for at least a decade. This is an organization that provides needed services, to a vulnerable population, in an isolated community, with limited resources. They work with integrity, empathy, compassion, and a deep drive to serve this population in this community.

Please feel free to contact me via the contact information above if you have any specific questions that I can answer.

Regards,

Wendy West, Esq.
