

**Alpha Behavior
Solutions**

To Whom it May Concern,

As Founder and Clinical Director of Alpha Behavior Solutions, an ABA therapy company located in Key West, Florida, I would like to formally thank the Autism Society of the Keys for all that they do. I have been witness to the ongoing support they continue to give to our local families. Their support groups are a huge value to all touched by autism in the Keys. In addition to meeting the emotional needs of our autism community, they continue to connect families with necessary resources. The Autism Society funds necessary therapies and medical evaluations for families who would not have been able to afford it otherwise. They also provide outreach and awareness of autism to the community in the form of events, presentations and sensory boxes to public services workers.

As a member of this community, parent and autism professional, I have seen firsthand how much this organization has helped local families. I would like to extend my support and heartfelt gratitude to the Autism Society of the Keys. If there is anything that I can do to further support their mission or discuss specifics of their positive impact please do not hesitate to reach out.

Sincerely,

Jessica McClung
